Impacts of COVID-19 on Inclusive Development and Governance:
Rapid and Post-Pandemic Assessment in The Mekong Subregion
11 December, 2020

Outline

- COVID-19 in ASEAN
- Economic Impacts
- Balancing Health Risks and Economic Costs
- Poor Suffer More, while SDGs slip
- Post Pandemic Recovery: Opening Borders?
- Summary and Lessons for the Future

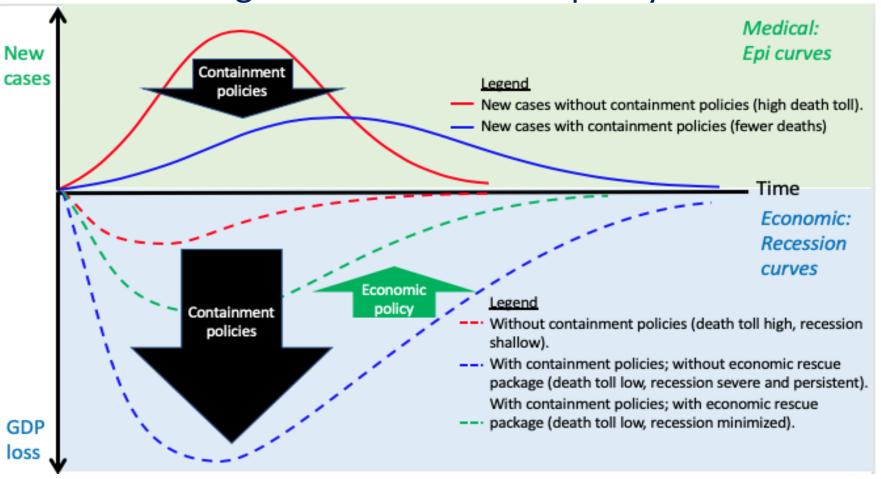

COVID-19 Indicators in ASEAN, World, 15 Nov 2020

| Countries | Total Cases (TC) | TC Per Mil Population | Total Deaths (TD) | TD Per Mil Population | Total Tests (TT) | TT Per Mil Population |
|-------------|---------------------|--------------------------|-------------------------|--------------------------|---------------------|--------------------------|
| Brunei | 148 | 337 | 3 | 3 | 72,550 | 165,248 |
| Cambodia | 302 | 18 | 0 | 0 | 208,154 | 12,387 |
| Indonesia | 467,113 | 1,701 | 15,211 | 55 | 5,055,488 | 18,410 |
| Laos | 24 | 3 | 0 | 0 | 71,020 | 9,709 |
| Malaysia | 47,417 | 1,458 | 309 | 10 | 2,401,043 | 73,834 |
| Myanmar | 68,994 | 1,265 | 1,577 | 29 | 897,352 | 16,451 |
| Philippines | 407,838 | 3,704 | 7,832 | 71 | 5,268,410 | 47,842 |
| Singapore | 58,119 | 9,905 | 28 | 5 | 4,066,897 | 693,124 |
| Thailand | 3,874 | 55 | 60 | 1 | 977,854 | 13,996 |
| Vietnam | 1,281 | 13 | 35 | <0 | 1,339,465 | 13,715 |
| ASEAN | 1,055,110 | 1,575 | 25,055 | 37 | 20,358,233 | 30,397 |
| World | 54,481,609 | 6,989 | 1,320,622 | 169 | - | - |

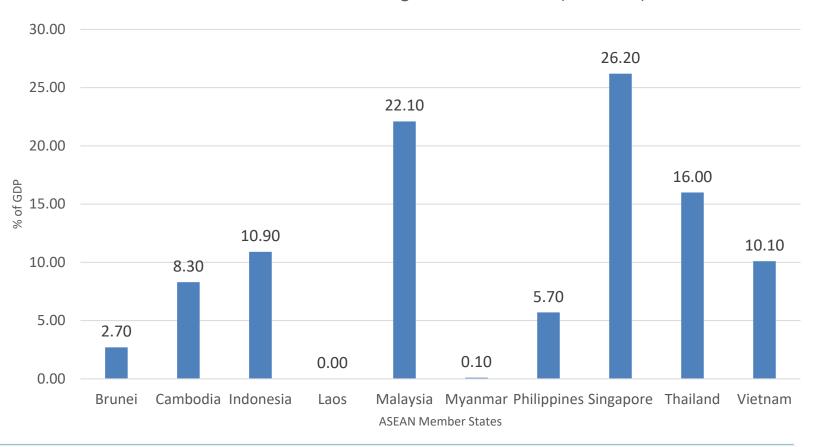

The recession, made worse by containment policy, can be mitigated with economic policy

Size of Economic Stimulus Programs (% of GDP)

Size of Stimulus Programmes in ASEAN (% of GDP)

IMF, ADB Forecasts, GDP Growth, ASEAN, 2020-21

| | | IMF Oct 2020 | | ADB Sept 2020 | |
|-------------|--------|--------------|------|---------------|------|
| | Actual | Forecast | | Forecast | |
| | 2019 | 2020 | 2021 | 2020 | 2021 |
| Brunei | 3.9 | 0.1 | 3.2 | 1.4 | 5.0 |
| Cambodia | 7.1 | -2.8 | 6.8 | -4.0 | 5.9 |
| Indonesia | 5.0 | -1.5 | 6.1 | -1.0 | 5.3 |
| Lao PDR | 5.0 | 0.2 | 4.8 | -2.5 | 4.5 |
| Malaysia | 4.3 | -6.0 | 7.8 | -5.0 | 6.5 |
| Myanmar | 6.8 | 2.0 | 5.7 | 1.8 | 6.0 |
| Philippines | 5.9 | -8.3 | 7.4 | -7.3 | 6.5 |
| Singapore | 0.7 | -6.0 | 5.0 | -6.2 | 4.5 |
| Thailand | 2.4 | -7.1 | 4.0 | -8.0 | 4.5 |
| Vietnam | 7.0 | 1.6 | 6.7 | 1.8 | 6.3 |

Balancing Health Risks and Economic Costs

- Lockdown for what purpose: Eliminating virus;
 Managing community spread; Flattening the curve?
- Lockdowns can work China, Vietnam; Thailand
- Lockdowns not necessary Taiwan; Hong Kong
- Lockdowns not feasible India; Indonesia
- Lockdowns not sustainable every country!
- Disproportionately affects the poor and vulnerable

Asia-Pacific is Falling behind the 2030 Agenda for Sustainable Development Goals

Progress to Sustainable Development Goals for Asia and the Pacific (as of 2019)

Lack of progress has increased vulnerability

- Lack of progress with SDGs have increased vulnerability of the poor and poor countries to COVID-19
- The pandemic will further slow their progress in achieving targets by 2030
- Unprepared and under-invested healthcare systems
- Lack of access to running water
- Lack of digital infrastructure
- School closures
- ... and the list goes on

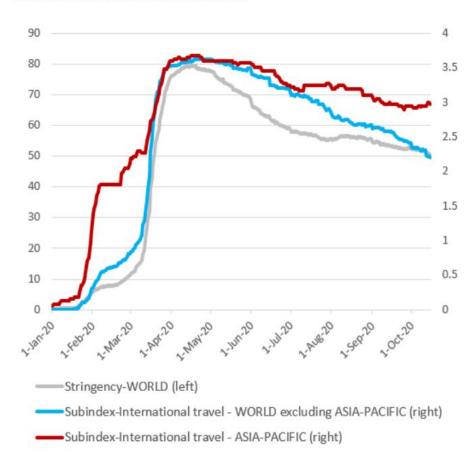

Poor suffer more...

- Directly from the virus
 - malnutrition; limited access to healthcare
- Indirectly from lockdowns
- cannot WFH; sometimes no (formal) work, or home; limited social safety nets in poor countries.
- Long term effects
- reversing decades of poverty reduction; may not share equally in recovery; education loss perpetuates inter-generational cycle of poverty; increased inequality

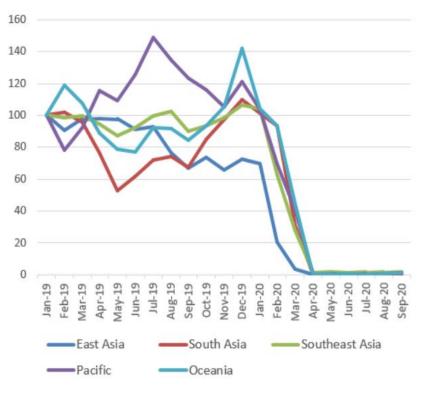

Travel restrictions have led to a sharp decline in arrivals...

International Travel Restrictions

Monthly International Tourist Arrivals by Subregion, (January 2019 = 100)

Post Pandemic Recovery: Opening Borders

- Made sense to close borders at the start, but still?
- While restrictions on domestic movements have eased, borders remain mostly closed to people movement
- Time to narrow the gap between domestic vs border restrictions
- A rebalancing can support recovery without significantly raising health risks
- Mekong travel bubble? Thailand's unilateral opening

Going forward...

- Even WHO now admits that lockdowns only serve to make the poor even poorer.
- Targeted measures preferred to general lockdown, unless risk of overwhelming the healthcare system
- Different balance between health risks and economy if large number of poor and limited safety nets
- Macroeconomic policy constraints
- Will poor have access to vaccine? (TB has a cure, but kills more than COVID in India).
- How long will it take? Time to open borders?

Thank you for listening!
